## PROMPT SHIPMENT

### FREIGHT CHARGES PREPAID - NO TAX

Your Summer Cottage will be delivered "tax free" and "freight paid" to your nearest railway station in Ontario; west to Lake Huron, east to Ottawa Valley and north as far as Mattawa, North Bay and Sudbury. Or if your building site can be reached by highway transport we will deliver by truck.

### LOW PRICES - EASY TERMS

Most of our Cottages are purchased on the monthly payment plan. We have arranged the payments to suit professional and salaried incomes, and our deferred terms include Fire Insurance for three years. Owners frequently get a rental income by letting the cottage for part season.

**BUILD YOUR OWN** It's part of the summer's fun to build your own Cottage. Our smaller models are shipped with framing materials "Ready Cut". And Blue Prints will guide you in construction details. Considering the present low cost of materials and the certainty of getting help at modest wages, the decision to "Build your Own" cottage could scarcely be made at a better time.

## BUILT WITH LOG CABIN MATCHED SIDING

Gives a pleasing rustic appearance to your cabin or cottage. And at the same time provides a sound, tight wall having a planed surface on the inside. Log Cabin Siding is supplied with the three Cottages shown on this page. You also get

### EVERYTHING TO BUILD AS SHOWN

One order; one low price brings you ALL MATERIALS to build the Cottage of your choice. You get dressed Framing Lumber, Log Cabin Siding, Matched Flooring, Veranda materials, Roofing, Paint and Stain for exterior, all outside Doors and Screen Doors, all ready glazed Sash and overall Window Screens; all Hardware and Nails; together with Blue Prints showing details of construction. NOTE: We send Metal Chimney; customer to furnish all materials for stone chimney if desired. Following the usual custom no Inside Doors are figured on for Summer Cottages and no Paint for interior. Veranda Screening Materials if desired are extra. But everything is sent complete to build the Cottage and we guarantee there'll be no "extras" due to shortage of material.

## IN-BUILT COMFORT IS THE KEYNOTE OF HALLIDAY SERVICE TO HOME BUILDERS

We suggest that COMFORT is the feature of your new home which, in the long run, will mean most to you. You want your new home to look well; you want it to be conveniently planned; you want to save as much as you can on the cost—but above everything you want the house, when completed, to be a home of all-weather comfort.

## STARTLING IDEAS REVOLUTIONARY METHODS

You'll be astonished at the things Halliday's do to insure all-weather comfort in your new home. Things the ordinary builder never thinks of. Details that are absolutely VITAL to the question of comfort but which are completely ignored in ordinary practice. Crazy ideas! So they seem to those who do not realize that the whole background of home construction has changed and is changing. People are waking up to the fact that comfort is not a happy accident; that it must be made the KEYNOTE of home construction. Only by planning for comfort; only by using the right materials in the right place can all-weather comfort be achieved. And this is the aim and object of Halliday "COMFORTESTED" construction.

IF YOU PLAN TO LIVE IN THE HOUSE YOU'RE BUILDING, DON'T FAIL TO INVESTIGATE

## GUARANTEED FIVE YEARS

Because we know the quality that goes into the can we do not hesitate to put this Guarantee on the label. All we ask is that you read and follow the simple instructions on the label. Do this and we guarantee the results, for FIVE YEARS. To us this means keeping up the highest standards of quality. To you it means guaranteed results, lasting protection.

## HOW MUCH PAINT TO ORDER

"Purity" House Paint will cover about 350 square feet per gallon, TWO COATS, on new, clean work or over old paint in fair condition. On weather-beaten rough surface about 300 square feet. To find number of gallons needed for a frame house take the distance in feet around your house, multiply by the height to eaves, plus 2 feet for cornice. Now divide by 350 or 300 depending on the condition of the surface. The result will be the number of gallons required. Trim color can be estimated at one gallon to every five of body color.

## SPRING SASH BALANCES

### FOR PAIR SASH—Page 10 EASY TO INSTAL—NOISELESS

The new improved SPRING BALANCES for pair sash (to slide up and down). They are set in the frame like sash pulleys, no box necessary. A strong spring with steel tape does the work of weights and cords. You save the extra cost of box frames and you get a warmer job. A pair of sash requires a set of two pairs of balances.

#### Choice of Two Styles

# GET RID OF MOTHS

Tennessee Aromatic Cedar Lining defies the moth. NO MOTH, EGGS OR LARVAE, can live in a closet or chest lined with Aromatic Cedar. Ordinary Cedar is useless. The wonderful Aromatic Oil of Cedar is found only in the red heartwood of the cedar log. It is the aroma or fume from this oil that is deadly to the moth. Therefore, we offer only genuine AROMATIC Tennessee RED Cedar containing 90 PER CENT OR MORE HEART WOOD.

## SUPER-CEDAR CLOSET LINING

Protect Furs, Woollens, with Tennessee Super Cedar Lining. Line your clothes closet (including door) also trunks, chests, cupboards. Easily applied because each piece is tongued and grooved at ends and sides.

## LATEST ELECTRIC PUMP 69.75

North Zone ..... 70.50

### FRESH WATER SYSTEM

With this new system practically no water is held in storage. It is pumped as required and comes direct from well or cistern each time you open a tap. The complete pumping unit occupies floor space barely more than two feet square, and will operate on an ordinary lighting circuit. The automatic switch "cuts in" and starts the pump the moment a tap is opened or the closet flushed. A splash oiling system insures proper lubrication. The system is simple, quiet and positive in operation.

The problem of sewage disposal is settled by the Septic Tank System. Raw sewage flows into the tank and thence out through a disposal bed made of field tile about 18" underground.

### CHEAP AND EASY TO INSTAL

No skilled labor needed. Anybody can instal a SEPTIC TANK SYSTEM of sewage disposal, following directions which we will send free on request to intending purchasers. Once properly installed the System requires no attention or upkeep. Our TANKS are made of "copper bearing" steel coated inside and outside with asphalt enamel. We quote below the two sizes most called for but on request shall be pleased to quote larger sizes for Schools, Tourist Camps, etc.

## ELECTRIC WATER SUPPLY

Prices are now at the lowest level in years, with the probability that factory costs will advance shortly. Surely never a better time to install this "silent servant" in your basement, there to keep a supply of water always on tap for bathroom, kitchen or laundry. Cost of installing, too, is cut to the limit. At a nominal rental we send you the full outfit of necessary tools. It's a good time to modernize your home!

# STOPS LEAKS

## ASPHALT PUTTY

### THE READY-MADE LEAK STOPPER

This thick, black, waterproof PUTTY comes ready for use. Just ladle it out of the can with a wood paddle and plaster it over the leaky spot. It will stick fast to any clean, dry surface; wood, cement, brick, metal, felt, glass, etc. In cool weather heat the can in hot water before using (never heat over a fire). Always keep a 5 lb. tin handy. It's a sure cure for leaks.

## ADVICE ON YOUR ROOF LEAKS

If the following brief suggestions do not help you please send full particulars for our free advice.

### Leaky Metal Roofs

For rust or pinhole leaks use "Halliday's" COATING (page 29). Noticeable breaks in the surface need ASPHALT PUTTY, priced above.

### Slate Coated Roofing

Water does not come through the felt. Put ASPHALT PUTTY over the laps, nail heads, valleys, chimney flashings, side flashings. See that the ridge is properly covered. Don't coat the whole roof with anything.

### Smooth Felt Roofing

Treat laps, etc., with ASPHALT PUTTY (as above). If felt has dried out apply "Halliday's" COATING over whole surface (see page 29).

### Wood or Asphalt Shingles

Cover old weather-worn Wood Shingles with Asphalt Shingles or with Slate Roll Roofing. If your Asphalt Shingle roof is leaking send us full particulars and await our advice.

## CAULKING CEMENT

### CAULKING SAVES FUEL DOLLARS

Shoot this plastic CAULKING CEMENT into the cracks around Window and Door Frames. Do it yourself. A few cents each window or door gives you protection against sifting winds. Summer is the best time to do the work.

### WE RENT YOU THE GUN

### DELIVERY OFFER ORDERS \$10 AND OVER

The following prices by the piece are  
based on \$3.00 per thousand (2" x  
4") tax free, and we deliver (\$10 or-  
ders) as far as Niagara Peninsula, Tor-  
onto, Guelph, Kitchener, Stratford, St.  
Marys, London, St. Thomas and Port  
Stanley.

Elsewhere in Ontario as far as Ottawa  
Valley, North Bay and Sudbury we will  
deliver at ONE-EIGHTH extra on  
these prices. The heavy weight of  
framing lumber necessarily makes the  
long-haul price more costly in less than  
car lots.

# REDWOOD SILOS

## THEY LAST

Farmers are sick of "tumbledown" Silos. Here's one that will last, because made of genuine California REDWOOD, "the wood of centuries". Redwood doesn't warp, swell, check or twist like other woods. It's the ideal material for Silo construction. And when you figure costs "by the year" it is the cheapest in the end. Write for further facts about Redwood.

# HEAVY COATED 28GA ROOFING

The "life" of the Roof is in the coating. That's why our HEAVY COATED Metal is preferred by wise buyers. It's guaranteed 1 1/4 ounces per foot—British Navy standard.

## ALL NO. 1 QUALITY

These are all first quality 28 (British) gauge galvanized STEEL SHEETS, with 2 1/2" corrugation. Weight about 68 lbs. per square. Width before corrugating 36"; after 33". Prices by the "square" are based on the width before corrugating, and do not allow for end lap or side lap. So that the actual coverage of a "square" in this material is only about 75 sq. feet when laid and lapped.

## \$10 ORDERS PREPAID

26-3312. Price per SHEET, based on 4.45 per "square" as explained above. Shipped direct from factory, charges paid, in Ontario as far as Ottawa Valley, Mattawa, North Bay and Sudbury.

### KAGAWONG KOTTAGE

This compact plan gives you the most for your money in liveable accommodation. The semi-detached Kitchen is a feature, while the Veranda can be screened to provide an outdoor living or sleeping room. The main room can, of course, be divided if desired by purchasing some extra materials for partitions. Our price covers ALL material to build the complete Cottage as pictured above. We pay the freight as already mentioned, and we absorb the Tax. Blue Prints show how to erect the Cottage and this simple plan can be built by any handy man who wants to put up his own Cottage. We invite you to write for further details.

### "VAGABONDIA"

Happy days spent out of doors—and restful nights under a snug roof. And for those occasional "bad days" a warm, dry shelter and all the room good company ever needs. The cosy bunks will sleep 8 people, and the interior is designed for mixed parties. Framing materials shipped "ready-cut" with Blue Prints showing how to erect. We deliver, as explained on page 1. Why rent year after year when you can buy this jolly holiday rendezvous on easy terms of payment?

### WHY NOT FORM A VACATION CLUB

Get your friends together. Let each one take a "share" and by thus dividing the cost 4 or 8 ways you'll own your cabin and scarcely miss the money. Write for our detailed suggestions "How to organize a VACATION CLUB".
